

WEEK OF ENRICHMENT

APRIL 13-17 - GRADE 4

Dear Families,

PS 29 teachers and staff have thoughtfully developed these daily schedules below in an effort to support our students with a balance of enrichment and social-emotional learning throughout the course of the week. As you'll note, we have still kept some distance learning structures in place that have been introduced over the past couple of weeks to anchor the day. It is our hope that these curated activities will offer our students joyful, real-world engagement both on and offline. As always, we want you to do what is best for your family this week, choosing among the menu of options below to keep your child learning and engaged in a healthy, fun, and manageable way.

Take care,

Grade 4 teachers & the PS29 Distance Learning Team

Monday

First, listen to the Morning Meeting, your daily Read Aloud, and do some of these activities:
